T3204, T3306 & T3308	End of Life	11/28/2000	11/28/2005	11/28/2005	T8000

### **Life Status Definitions**

**End of Sale:** This is defined as when a product or option is removed from the price list and is therefore no longer available for general sale through normal channels. In some situations, the product or option may be sold on an exception basis. These products are under full support from a spares/repairs/consumables standpoint.

**Limited Support:** This is defined as products where there may be issues in sourcing spare parts and/or performing repairs. In this case, Printronix Auto ID will make a best effort to support the product, as parts may not be readily available. Technical support will no longer be available. Consumables however, will continue to be available.

**End of Support:** This is defined as when options, related accessories, spares, repairs & technical support are no longer sold and/or available. Consumables however, continue to be available.

**End of Life:** This is defined as when consumables, options, related accessories, spares, repairs & technical support are no longer sold and/or available.
