The **M4L2** stands for power, reliability and ultimate mobility. Showcasing the industry’s first high-performance WiFi radio module with Dual-Antenna Technology, best-in-class battery life and rugged design, the M4L2 is built to improve your bottom line by increasing efficiency.

**Constant Connectivity**
- Dual-Antenna technology extends WiFi range and reduces dead spots
- Supercharged radio module increases data transmission speeds for faster label printing
- Supports frequency bands of both 2.4 GHz and 5.0 GHz for robust networking
- Compatible with 802.11 a/b/g/n standards

**High-Performance Battery**
- 11% more battery life than leading competitive models
- Powers a full work shift, even with the most demanding work load

**Rugged Design**
- Rubber-infused over-molding construction for enterprise-grade durability
- Drop-resistant from 5ft (1.5m) onto concrete surfaces
- IP54 certified with optional case protector for increased resistance to water, dust, and drop-protection up to 6ft (1.8m)
Longer Uptime, Easier Integration, and Printronix Auto ID Reliability You Can Trust. Ready to run all shift long thanks to a long battery life, and fully compatible with other competitive models, the M4L2 is factory-ready for ZPL II® or CPCL, and connects directly to your legacy host systems and peripheral devices for quick and easy integration.

**KEY FEATURES**

- Dual-Antenna Technology delivers high-performance wireless connections and increased mobility.
- High-capacity, rechargeable Lithium-Ion battery lasts all shift long.
- Rubberized over-molding external case survives many 5 foot (1.5 m) drops.
- High speed processor and extensive memory options enable fast printing.
- Large, backlit LCD display with intuitive menu keys makes printer use easy.
- Wireless modules in Bluetooth or secure WPA2 WiFi 802.11 a/b/g/n allow for local and networked systems connections.
- Large label roll capacity reduces time lost to roll changes.
